

Update on on-going projects

- **Estimating incidence in cocaine use among treatment demands (Andrew Jones)**
- **Profile of women accessing drug treatment (Suzi Lyons)**
- **Psychiatric comorbidity**
- **Coverage of treatment demand**
- **Trends in cocaine treatment demands (Jerome Antoine)**

Psychiatric comorbidity in TDI monitoring

- **Workshop during the TDI meeting 2019**
- **Objective to include information on psychiatric comorbidity in the TDI using a standardised instrument**
- **Several countries interested in participating**
- **Short questionnaire sent to interested countries at the beginning of 2020 to collect information on:**
 - where comorbid patients are treated (general health facilities or drug treatment)
 - who is doing the diagnosis
 - If data are collected and can be shared
- **Interested countries can contact EMCDDA for following up**

New format

Annual expert meeting

- 1 day physical (or virtual) meeting with all national experts – general discussion on methodological and analytical developments.

Virtual working groups on defined projects

- Core group of interested experts
- Regular virtual meetings
- Output oriented and horizontal approach (expert-led)

Topical virtual meeting on state of progress open to all experts (or ad-hoc emerging topics)
