

DRD trends The Netherlands

Source: Causes of Death Statistics, Statistics Netherlands (CBS), data delivered to the Trimbos Institute, Netherlands Institute of Mental Health and Addiction on 06-09-2021.

Possible drivers

- Continued ageing of opioids users
- Inclusion of medical opioids
- More detection and more registration due to electronic delivery of data

Source data

- Source: Causes of Death Statistics, Statistics Netherlands (CBS), data delivered to the Trimbos Institute, Netherlands Institute of Mental Health and Addiction on 06-09-2021.
 - Has continued as before during 2020.

Responses

- The special register under development will have to give more clarity.
 - First data during 2022.
