Behavioral Data in TDI and DRID Data Collection in Croatia

Marko Markus, Office for Combating Drug Abuse of the Government of the
Republic of Croatia

TDI/DRID Expert Meeting, Lisbon, 8 June 2016

National Register of Persons Treated for Abuse Of Psychoactive Drugs

- ❖ **MAIN TASK** – monitoring of drug abuse phenomena, collecting information on persons treated for abuse and utilization of the information for improvement of treatment programs and services

- ❖ **TIMELINE**
 - 1978. Created within Department for Epidemiology of Psychoactive Drugs at Croatian Public Health Institute – collects and analyses data on persons which were treated for drug abuse or dependence at any health institution

 - 1983. State Register of Persons Treated for Narcotic Drugs Abuse – annual report is being published

 - 1995. Data collection from institutions that provide outpatient treatments included

Pompidou Form

- ❖ Created by Pompidou Group of Council of Europe
- ❖ Enables data comparison on EU level
- ❖ Used as yearly report form for each individual person in treatment (for every visit, first time or otherwise)
- ❖ Enables all data for one person to be interlinked, thus preventing double reporting

Pompidou Form (2)
